Hardy Vines	15
Roses	15
Fruit	16

TERMS AND CONDITIONS OF SALE

LOCATION—The Berryhill Nursery is located four miles northeast of Springfield, Ohio, on State Route 4. The nursery extends to the limits of the village of New Moorefield. It occupies approximately two hundred acres of fertile level soil. The consistency of our soil is clay-loam. It develops root systems of superior quality and is ideal for digging plants B&B.

PRICES—The prices on this list cancel all previous lists and quotations. They are subject to change without notice and to stock being unsold upon receipt of order. Our packing charges are at cost. All materials are quoted f.o.b. our freight or express station or our nursery. This price list is intended for the trade only. If this list reaches anyone not entitled to it, we would appreciate being notified of that fact, so that we may correct our mailing list.

TERMS—Cash with order, except to nurserymen and landscapers with whom credit relations are established. To establish credit it is necessary to give satisfactory references and allow sufficient time for investigation. All accounts will be due thirty days from date of invoice. We charge 6% on overdue accounts.

INSPECTION—All materials supplied by the Berryhill Nursery Company are covered by certificates of inspection by the Ohio Department of Agriculture.

GUARANTEE AND CLAIMS—All plant materials are warranted to be true to name, up to size specified and in good healthy condition when furnished. We sell under the standard form nurserymen's non-warranty clause, which reads in part, "We give no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any nursery stock, seeds, or bulbs we sell." All shipments are at the risk of the purchaser after being delivered to the carrier in good condition. All claims must be made immediately after receipt of the stock.

SPECIMEN PLANTS SELECTED BY CUSTOMERS WILL BE PRICED ACCORDING TO INDIVIDUAL VALUE—Because of the scarcity of certain varieties of nursery stock this year, we urge members of the trade to place orders **early**. Although we have large supplies of every item listed in our catalogue, it is impossible to be assured that every order will be entirely filled, unless it is received **early**. We are glad to have those who place their orders before the season opens mark their own plants.

LINING OUT STOCK

Berryhill produces an extensive amount of L. O. stock in the superior varieties and in excellent quality. These plants are produced primarily for our own needs. Each spring, however, we have stock available for sale, and we consequently solicit inquiries in the form of want lists. Upon these we will render excellent quotations, limiting the quantity available according to our position on L. O. stock of items desired, but giving the very best prices. This year we have 20,000 *Taxus cuspidata*, 9 to 12 inches with exceptional root systems developed after two years in 2½ inch pots at \$22 per hundred. We also have 3,000 *Euonymus colorato*, 12 to 15 inches, branched and established in two year beds at \$10 per hundred. May we have your want lists?

SPECIAL VARIETIES AND SIZES

Varieties and sizes, which we have in smaller quantity, we have not listed in our catalogue. We have a large selection of specially trimmed specimens in various sizes on which we will make attractive quotations. We also have larger sizes than listed in many varieties. On these we will give special quotations on request.

EVERGREEN TREES

	Each	
ABIES BALSAMEA		Balsam Fir
4 to 5 ft.....	2.50	
5 to 6 ft.....	3.25

TRADE LETTER

TWENTY-FIVE YEARS OF EXPERIENCE, our record in the wholesale nursery trade, enable us to serve with confidence. We intend to follow every rule of fair trade that has been encountered in this long period and to conduct our business on principles that make us worthy of the respect of our customers.

AN UNBROKEN ASSORTMENT OF QUALITY NURSERY STOCK is our aim in endeavoring to be of service to the widest possible market. Some of the items in our list are not profitable from a business standpoint but are necessary for fine landscape work. To enable us to produce a more general line we request the cooperation of our customers in submitting to us orders balanced so as to require stock in reasonable assortment.

OUR INVENTORY as covered by the present list is as excellent as we have ever produced. Growing conditions at Springfield during the 1939 season were very satisfactory. Stock will be found in excellent finish and up to full grade. Rainfall has been adequate and our soil is fertile.

OUR SERVICE WILL BE FOUND PROMPT AND RELIABLE. We exert particular effort in personal selections of stock, supervision of digging and grading. Balled and burlapped stock is given special attention. In recent years we have adopted speedy methods for the handling of stock going by truck. We are prepared to completely load on and send out orders in large trucks without delay to our clients or their men and equipment.

WE HOPE THAT the above statements warrant a trial of Berryhill's stock and service. We are anxious to meet and deal with all members of the industry. Come to see us—we will try to please you with quality stock and reasonable prices. Whether we succeed or not, we will see that you enjoy your visit as much as we know that we will enjoy having you.

WE OFFER AS REFERENCES any business house or bank in the city of Springfield or any leading nursery firm.
